Regression Tests - Emu Synchronisation

Release:	**0**	Passed
Tested by :	**0**	Failed
Date :	**9**	Not Executed
	9	**No. of Test Cases**

Functional Area:	Emu Synchronisation		
Test Name:	**4.01 Changes to Emu record**		
Pre-requisites:	**CMS record in test Emu with at least 1 IE linked to it in the permanent repository**		
Action	**Expected Results**	**Status**	**Actual Results / Comments**
Search for Emu CMS ID / Reference number in the permanent. Check CMS dc records associated with IE(s). Take note of CMS Title & Description fields. (Using simple search)	IE has CMS dc record with Title & Description fields	**Not Executed**	
Search for the same Emu record in the permanent using advanced search.	Items linked to that CMS record returned	**Not Executed**	
Go to test Tiaki and change Title & Description fields (ask CW to do). Wait 10 minutes (or as CW advise). Then search for those same IEs and make sure the CMS dc title & description fields have been updated	Changed Title & Description fields should have been updated in the CMS record (PS- Takes a while - Changes to appear in NDHA)	**Not Executed**	

Functional Area:	**Emu Synchronisation**		
Test Name:	**4.02 Remove IE - Emu CMS record link**		
Pre-requisites:	**CMS record in test Emu with ONLY 1 IE linked to it in the permanent repository**		
Action	**Expected Results**	**Status**	**Actual Results / Comment**
Search for CMS ID / Reference number in Emu. Check that DPS flag is set to on. Go to the OPAC and deliver the object.	Object delivers	**Not Executed**	
Find a CMS record in Tiaki with no IEs linked to it. Make sure it has no "view archived copy" link in the OPAC (the DPS flag is not set). Go to Meditor and search for the IE link and assign the IE to a different CMS record (the one you identified above).	The new CMS record has been assigned to IE.	**Not Executed**	
View the record via emu	"view digital copy" link is there	**Not Executed**	
Click the **View Digital Copy** link of the record	Object delivers	**Not Executed**	
Remove the CMS link from the IE and commit changes. In Emu /OPAC check record.	Image is not linked anymore to the emu record. The DPS flag has been removed and the link is no longer on the OPAC record.	**Not Executed**	
Search for the above CMS ID / Reference number/CMS title now in the permanent. (You should now get no results)	no results found	**Not Executed**
